

Founded in 2002, O.S. Energy is a privately held specialised offshore service provider providing vital services for projects and Windfarms in both North- and Baltic Seas. O.S. Energy is proud owner of a group owned fleet of six multipurpose survey vessels under Danish, German, Norwegian and UK flag.

We are currently looking for a Chief Engineering Officer to strengthen our crew onboard our British flagged vessel.

You should be in possession of all relevant certificates acc. to STCW Regulation and have several years of experience in leading the engine department onboard ship.

What you offer:

- Flexibility;
- Strong decision making and problem-solving skills.
- A team-oriented, cooperative approach to leading a team of younger engineers.
- A structured approach to work and good communication, both onboard and with the office.
- British passport or working permit;
- Experience in engine room works and maintenance and strong understanding of all technical matters onboard ship.
- UK driving license.

What we offer:

- British Contracts;
- The opportunity to shape your work environment and take part in the decision-making processes, both at sea and in the office;
- Service on a specialised vessel working for Universities, Governments and the Offshore industries in various projects all around the British Isles;
- Versatile assignments and the possibility to take part in providing and developing customised solutions for your vessel in an emerging market;
- Vocational training and the opportunity to collect necessary seagoing time according to STCW regulation.

Could we pique your interest? Please send your current CV and covering letter to our Crewing Department at:

Crewing@os-energy.de
